Subject: Weekly Report Item

John and Kate,

MAMPD has a write up for the weekly report. Let us know who we should give the information to since Rochele is out this week. Thanks!

Martha

Information Exchange on EPA's Good Laboratory Practice Compliance Monitoring Program

Office of Compliance (OC) staff participated on a panel and delivered a presentation at the American Chemical Society (ACS) Agro Division annual meeting in Boston on August 23, 2018. The presentation provided a technical update focused on product and analytical chemistry studies submitted to the Office of Pesticide Programs supporting product registrations and the associated OC inspections, data audits and general findings. OC shared compliance assistance, best management practices, and answered questions regarding GLPs. Information was also shared about OECA's new search function for all federal inspection data, including GLP, using OECA's Enforcement and Compliance History Online.
